

Simple Composition Writing

Chapter 6: Simple Composition Writing · Topic 1

Key Concept

A simple composition is a short piece of writing, usually a few sentences or a paragraph, about a topic like 'My Family' or 'My Favourite Animal.'

A good composition has a clear beginning, describes the topic with details, and ends with a concluding thought.

Using describing words (adjectives) and correct sentence structure makes our composition more interesting to read.

Practising composition writing regularly helps us express our thoughts clearly and improves our overall writing skills.

Quick Revision Notes

- A composition is a short piece of writing.
- Topics: 'My Family', 'My Favourite Animal'.
- It has a beginning, details, and conclusion.
