

Grammar - Parts of Speech

Chapter 1: Grammar - Parts of Speech · Topic 1

Key Concept

Nouns name people, places, or things; verbs show actions; adjectives describe nouns; and pronouns replace nouns.

Adverbs describe verbs, adjectives, or other adverbs, often telling us how, when, or where something happens.

Prepositions show relationships between words, like 'in,' 'on,' or 'under,' often indicating location or time.

Understanding parts of speech helps us construct grammatically correct sentences and understand how words function together.
