

Vocabulary and Language Practice - Anandi's Rainbow

Chapter 9: Anandi's Rainbow · Topic 2

Key Concept

Rainbow colour words include 'red', 'orange', 'yellow', 'green', 'blue', and 'violet'. These are naming words for colours we can use to describe things.

We can practice sentences like 'The rainbow has a red colour' or 'I like the colour blue' to use these words correctly.

We can also learn words connected to curiosity, like 'wonder', 'curious', and 'discover', which describe Anandi's feelings in the story.

Using colour words and curiosity words together helps us describe both what we see and how we feel about discovering new things.

Quick Revision Notes

- Rainbow colours include red, orange, yellow, green, blue and violet.
- Colour words describe the colour of things.
- We can make sentences using colour words.
- 'I like the colour blue' uses a colour word correctly.
- Curiosity words include wonder, curious and discover.
- These words describe feelings of curiosity.
- Colour words and curiosity words can be used together.
- These words help describe seeing and feeling about new things.

Practice Questions

- 1 List all the rainbow colour words you remember.
- 2 Make a sentence using your favourite colour word.
- 3 Draw and colour a rainbow, labelling each colour.
- 4 Find three objects at home and name their colours.
- 5 Make a sentence using the word 'curious' or 'wonder'.
- 6 Describe something you discovered recently using a curiosity word.
