

Practice and Revision - A Simple Poem

Chapter 5: A Simple Poem · Topic 2

Key Concept

A poem often has lines that rhyme, meaning they end with similar sounds, like 'cat' and 'hat,' making it fun to read and remember.

Poems can be about anything - animals, nature, family, or feelings - expressed in a short and rhythmic way.

Reading poems aloud with expression helps us enjoy the rhythm and understand the feelings the poem expresses.

Learning simple poems helps build vocabulary, memory, and a love for reading and language.

Quick Revision Notes

- Poems often rhyme (similar ending sounds).
- Example: cat and hat rhyme.
- Poems can be about anything.
- They use rhythm and short lines.
- Reading aloud helps enjoy rhythm.
