

Places in Our Neighbourhood

Chapter 2: Exploring Our Neighbourhood · Topic 1

Key Concept

Schools provide education, hospitals provide healthcare, and markets provide the goods people need for daily living.

Parks and playgrounds offer spaces for recreation and exercise, helping people stay healthy and socialise with others.

Government offices, like the post office or municipal office, provide services like mail delivery or handling local administration.

Knowing the important places in our neighbourhood helps us navigate our area and understand the services available to our community.

Quick Revision Notes

- Schools provide education.
- Hospitals provide healthcare.
- Markets provide daily goods.
- Parks offer recreation and exercise space.
- Post offices provide mail delivery services.
- Municipal offices handle local administration.
- Knowing places helps us navigate our neighbourhood.
- Different places serve different community needs.

Practice Questions

- 1 Draw a map of your neighbourhood with important places.
- 2 Visit or discuss a park near your home.
- 3 Explain the role of a hospital or school in your community.
- 4 Find the nearest post office or municipal office.
- 5 List five places in your neighbourhood and their purpose.
- 6 Discuss why parks are important for health.
