

Practice and Revision - Drawing with Paint Tools

Chapter 4: Drawing with Paint Tools · Topic 2

Key Concept

The shapes tool lets us draw circles, squares, and rectangles easily by clicking and dragging on the screen.

The fill colour tool lets us fill a shape or area with a colour of our choice, making our drawings more colourful.

The text tool lets us add words or letters to our drawing, like a title or a label.

Using these tools together helps us create fun and creative pictures on the computer.

Quick Revision Notes

- Paint has shapes, fill colour and text tools.
- The shapes tool draws circles, squares and rectangles.
- We click and drag to draw shapes.
- The fill colour tool colours a shape or area.
- The text tool adds words to a drawing.
- Text can be a title or label.
- These tools help create colourful drawings.
- Using tools together makes creative pictures.

Practice Questions

- 1 Draw a shape using the shapes tool.
- 2 Fill your shape with a colour.
- 3 Add a text label to your drawing.
- 4 Create a simple picture using shapes, colour and text.
- 5 Discuss which tool you enjoyed using most.
- 6 Draw a house using circles, squares and text.
