

Grammar - Adjectives

Chapter 3: Grammar - Adjectives · Topic 1

Key Concept

An adjective describes a noun, telling us more about its size (big), colour (red), or quality (beautiful).

Adjectives usually come before the noun they describe, like 'a red apple' or 'a big house.'

Using adjectives makes our sentences more descriptive and interesting, helping the reader picture what we are talking about.

Practising the use of adjectives helps us write and speak more vividly and clearly.

Quick Revision Notes

- Adjective describes a noun.
- It tells about size, colour, quality.
- Examples: big, red, beautiful.
- Adjectives usually come before the noun.
- Example: 'a red apple'.
- They make sentences more descriptive.
- This helps readers picture the idea.
- Practice improves vivid writing and speaking.
