

Places in Our Neighbourhood

Chapter 1: Our Neighbourhood · Topic 2

Key Concept

A school is where we go to learn, while a hospital is where we go when we are sick or injured, to be treated by doctors and nurses.

A market or shop is where we buy things we need, like food, clothes, and household items, while a park is a place to play and relax outdoors.

Places of worship, like temples, mosques, churches, and gurudwaras, are important community spaces where people practice their faith and gather together.

Knowing the important places in our neighbourhood helps us find our way around and understand how our community meets different needs.

Quick Revision Notes

- A school is where we go to learn.
- A hospital is where we go for medical treatment.
- A market is where we buy things we need.
- A park is a place to play and relax outdoors.
- Places of worship include temples, mosques, churches and gurudwaras.
- Places of worship are important community spaces.
- Knowing neighbourhood places helps us find our way.
- Different places meet different community needs.

Practice Questions

- 1 List five important places in your neighbourhood.
- 2 Draw a map of your neighbourhood showing key places.
- 3 Visit or discuss a park near your home.
- 4 Discuss the role of a hospital in the community.
- 5 Name a place of worship near your home.
- 6 Explain why schools are important places in a neighbourhood.
