

Topic 1: Review of Nouns, Pronouns, Adjectives

Chapter 1: Grammar Review and Clauses · Topic 1

Key Concept

A noun names a person, place, or thing, like 'teacher,' 'city,' or 'book,' forming the foundation of most sentences.

A pronoun replaces a noun to avoid repetition, like using 'she' instead of repeating a girl's name multiple times.

An adjective describes a noun, giving more information about its size, colour, or quality, like 'tall,' 'red,' or 'beautiful.'

Reviewing these three parts of speech helps us build grammatically correct and more descriptive sentences.
