

Changes in the Family and Neighbourhood

Chapter 5: Changes in the Family and Neighbourhood · Topic 1

Key Concept

Families change as members grow older, get married, have children, or move to different places for work or education.

Neighbourhoods change due to new construction, population growth, and development of infrastructure like roads and shops.

These changes can bring both benefits, like better facilities, and challenges, like increased traffic or loss of green spaces.

Understanding these changes helps us adapt to our evolving communities and appreciate both old traditions and new developments.

Quick Revision Notes

- Families change: growth, marriage, children, moving.
- Neighbourhoods change: construction, population, infrastructure.
- Changes bring benefits: better facilities.
- Changes also bring challenges: traffic, less green space.
- Understanding change helps us adapt.
- We can appreciate old traditions.
- We can also value new developments.
- This is part of community evolution.

Practice Questions

- 1 Discuss a change in your family over the years.
- 2 Discuss a change in your neighbourhood.
- 3 Talk to an elder about how the area has changed.
- 4 Draw a before-and-after picture of your neighbourhood.
- 5 Discuss a benefit and a challenge of local development.
- 6 Discuss how you can help preserve local traditions.
