

Diversity in Society

Chapter 13: Diversity in Society · Topic 1

Key Concept

India is known for its incredible diversity, with people speaking different languages, practising different religions, and following various customs.

This diversity is often described as 'unity in diversity,' where people from different backgrounds live together harmoniously as one nation.

Respecting diversity means valuing and accepting differences in others, rather than discriminating based on religion, language, or culture.

Embracing diversity strengthens society by bringing different perspectives, traditions, and ideas that enrich the community as a whole.

Quick Revision Notes

- India known for incredible diversity.
- Different languages, religions, customs.
- Described as 'unity in diversity'.
- People live harmoniously as one nation.
- Respecting diversity: valuing differences.
