

Grammar - Tenses

Chapter 2: Grammar - Tenses · Topic 1

Key Concept

Present tense describes current actions or habits, like 'I read books' or 'She plays every day.'

Past tense describes completed actions, like 'I read a book yesterday' or 'She played football last week.'

Future tense describes actions that will happen, using 'will' or 'going to,' like 'I will read' or 'She is going to play.'

Using the correct tense helps us clearly communicate whether something is happening now, happened before, or will happen later.
