

Who Fulfils Our Needs

Chapter 9: Who Fulfils Our Needs · Topic 1

Key Concept

Farmers grow crops and raise animals to provide us with food like grains, vegetables, fruits, milk, and meat.

Doctors and nurses take care of our health, treating illnesses and helping us stay well.

Teachers help us learn and gain knowledge, preparing us for our future, while shopkeepers provide goods we need.

Every worker, from a farmer to a doctor, plays an important role in fulfilling different needs in our community.

Quick Revision Notes

- Farmers grow food: grains, vegetables, fruits.
- They also raise animals for milk, meat.
- Doctors and nurses care for our health.
