

Time and Calendar

Chapter 7: Time and Calendar · Topic 1

Key Concept

Reading time to the nearest 5 minutes means understanding when the minute hand points to numbers like 1 (5 minutes), 2 (10 minutes), and so on.

A calendar shows the days, weeks, and months of a year, helping us track dates, plan events, and remember important days.

Understanding a calendar helps us know which day of the week a date falls on and how many days are in each month.

Practising reading clocks and calendars helps us manage our time and plan our daily and monthly activities better.

Quick Revision Notes

- Reading time to nearest 5 minutes.
- Minute hand at 1 = 5 min; at 2 = 10 min.
- A calendar shows days, weeks, months.
- It helps track dates, plan events.
- It shows which day a date falls on.
- It also shows days in each month.
- Practice helps manage time.
- It helps plan daily and monthly activities.

Practice Questions

- 1 Draw a clock showing 3:15.
- 2 Draw a clock showing 6:30.
- 3 Find today's date on a calendar.
- 4 Count the days in the current month.
- 5 Plan an event using a calendar.
- 6 Discuss why calendars are useful.
