

Numbers 1 to 20

Chapter 1: Numbers 1 to 20 · Topic 1

Key Concept

Numbers help us count objects around us, like counting toys, fruits, or fingers, starting from 1 and going up to 20.

We can write numbers using numerals (1, 2, 3...) and words (one, two, three...), and it's important to know both.

Numbers have an order, so we can tell which number comes before or after another, and compare which is bigger or smaller.

Practising counting objects and writing numbers helps build a strong foundation for learning more mathematics later.

Quick Revision Notes

- Numbers help us count objects.
- We count from 1 to 20.
- Numbers are written as numerals and words.
- Example: 1 = one, 2 = two.
- Numbers have an order.
- We can compare bigger and smaller numbers.
- Counting objects builds number sense.
- This is a foundation for more maths.

Practice Questions

- 1 Count objects around you from 1 to 10.
- 2 Write numbers 1 to 20 in order.
- 3 Write the number 7 in words.
- 4 Compare two numbers and say which is bigger.
- 5 Draw 5 stars and count them.
- 6 Practice writing numbers 11 to 20.
