

Practice and Revision - Impact of British Rule on India

Chapter 7: Impact of British Rule on India · Topic 2

Key Concept

Economically, British rule often prioritised British interests, exporting raw materials from India and importing British manufactured goods, harming local industries.

The British introduced infrastructure like railways and telegraphs, though primarily designed to serve British administrative and economic interests.

Socially, British rule brought Western education and legal systems, influencing Indian society, though colonial rule was accompanied by de systemic economic exploitation.

Overall, British rule left a complex legacy of infrastructure and administrative systems, alongside decades of economic exploitation and social disruption.
