

Time and Calendar

Chapter 7: Time and Calendar · Topic 1

Key Concept

A day has 24 hours, and we use a clock to tell what hour and minute it currently is.

A week has 7 days - Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday.

A calendar shows all the days in a month, helping us track dates, birthdays, and important events.

A year has 12 months and about 365 days, and calendars help us plan for the whole year ahead.

Quick Revision Notes

- A day has 24 hours.
- A clock tells us the hour and minute.
- A week has 7 days.
- The days are Sunday through Saturday.
- A calendar shows days in a month.
- Calendars help track dates and events.
- A year has 12 months.
- A year has about 365 days.

Practice Questions

- 1 Name the days of the week in order.
- 2 Name the months of the year in order.
- 3 Find today's date on a calendar.
- 4 Discuss an important event on your calendar.
- 5 Practice reading the time on a clock.
- 6 Count how many days until your birthday.
