

Numbers up to 1000

Chapter 1: Numbers up to 1000 · Topic 1

Key Concept

Numbers up to 1000 are made of hundreds, tens, and ones, like 452 having 4 hundreds, 5 tens, and 2 ones.

We can write numbers using numerals (452) and words (four hundred fifty-two), important for both reading and writing.

Numbers have an order, so we can arrange them from smallest to largest, or compare which number is bigger.

Practising numbers up to 1000 with counting, place value, and comparison builds a strong foundation for bigger numbers.

Quick Revision Notes

- Numbers up to 1000 have hundreds, tens, ones.
- $452 = 4 \text{ hundreds} + 5 \text{ tens} + 2 \text{ ones}$.
- Numbers written as numerals and words.
- $452 = \text{four hundred fifty-two}$.
- Numbers have an order.
- We arrange smallest to largest.
- We compare which number is bigger.
- This builds foundation for bigger numbers.

Practice Questions

- 1 Write the numbers 100 to 150.
- 2 Identify the hundreds, tens and ones in 623.
- 3 Write 385 in words.
- 4 Compare 542 and 524, saying which is bigger.
- 5 Arrange 234, 456, 123 from smallest to largest.
- 6 Write the number that has 7 hundreds, 2 tens, 5 ones.
