

Numbers 1 to 20

Chapter 1: Numbers 1 to 20 · Topic 1

Key Concept

We count objects one by one, saying the numbers 1, 2, 3, and so on, up to 20.

Each number has a name and a way to write it, like the numeral 5 for the word 'five'.

Numbers can be arranged in order, from smallest to largest, helping us understand which number comes before or after another.

Practising counting objects like toys, fruits, or fingers helps us understand numbers 1 to 20 better.

Quick Revision Notes

- Numbers 1 to 20 help us count objects.
- We count one by one, in order.
- Each number has a name and a written numeral.
- 5 is written for the word 'five'.
- Numbers can be arranged from smallest to largest.
- Ordering helps us know what comes before or after.
- Counting objects helps us learn numbers.
- We can count toys, fruits or fingers to practice.

Practice Questions
