

Verbs - Action Words

Chapter 6: Verbs - Action Words · Topic 1

Key Concept

A verb is a word that shows an action, like 'run,' 'jump,' 'eat,' or 'sleep,' telling us what someone is doing.

Every sentence needs a verb to tell us what is happening, like 'The boy runs' or 'The bird flies.'

Some verbs show physical actions (like 'jump'), while others show actions we cannot see, like 'think' or 'know.'

Learning to identify verbs helps us understand sentences better and build our own sentences correctly.

Quick Revision Notes

- A verb is an action word.
- Examples: run, jump, eat, sleep.
- Every sentence needs a verb.
- Example: 'The boy runs.'
- Some verbs show physical actions.
- Others show actions we cannot see, like 'think'.
- Identifying verbs helps understand sentences.
- It helps build correct sentences.

Practice Questions

- 1 Name three verbs you know.
- 2 Identify the verb in 'The bird flies.'
- 3 Write a sentence using the verb 'jump.'
- 4 Act out three action words.
- 5 Draw a picture showing an action and name the verb.
- 6 List two verbs for things you do every day.
