

Practising Sarvanam Roop (Pronoun Forms)

Chapter 5: Sarvanam Roop (Pronoun Forms) · Topic 2

Key Concept

Common Sanskrit pronouns include तस्य (that/he/she/it), एतस्य (this), and त्वम् (you), each changing form depending on gender, number and case, just like nouns.

For example, 'तस्य' means 'he' (masculine, subject form), while 'एतस्य' means 'she' (feminine, subject form), showing how pronouns change with gender.

Pronoun forms are used frequently in Sanskrit sentences and texts, making them essential to learn for basic reading and comprehension.

Practising pronoun forms alongside noun forms (Shabd Roop) helps build a stronger foundation for constructing and understanding Sanskrit sentences.
