

Our Clothes

Chapter 10: Our Clothes · Topic 1

Key Concept

Clothes protect our body from heat, cold, rain, and sun, helping us stay comfortable in different weather conditions.

Different regions and cultures have traditional clothing, reflecting their history, climate, and customs, like sarees or turbans in India.

We wear different clothes for different occasions - school uniforms for school, comfortable clothes for play, and special clothes for festivals.

Clothes are made from different materials like cotton, wool, and silk, each suited for different weather and purposes.

Quick Revision Notes

- Clothes protect from heat, cold, rain, sun.
- They keep us comfortable in weather.
- Different cultures have traditional clothing.
- Examples: sarees, turbans in India.
- Different occasions need different clothes.
- School uniform, play clothes, festival clothes.
- Clothes are made from cotton, wool, silk.
- Each material suits different purposes.
