

Practice and Revision - Simple Words and Sentences

Chapter 2: Simple Words and Sentences · Topic 2

Key Concept

A word is a group of letters that has meaning, like 'cat,' 'dog,' or 'sun,' and we can combine words to form sentences.

A sentence is a group of words that expresses a complete thought, like 'The cat is black,' and starts with a capital letter.

Simple sentences usually have a subject (who or what) and a predicate (what they do), like 'The dog runs.'

Practising reading and writing simple words and sentences builds a strong foundation for language skills.

Quick Revision Notes

- A word is a group of letters with meaning.
- Example words: cat, dog, sun.
- A sentence expresses a complete thought.
- Sentences start with a capital letter.
- Simple sentences have subject and predicate.
- Example: 'The dog runs.'
- Practice builds language foundation.
- Reading and writing both matter.

Practice Questions

- 1 Write three simple words you know.
- 2 Write a simple sentence about your day.
- 3 Read a simple sentence aloud.
- 4 Identify the subject in 'The cat sleeps.'
- 5 Draw a picture and write a sentence about it.
- 6 Practice writing your name as a sentence starter.
