

My School

Chapter 6: My School · Topic 1

Key Concept

Our school has classrooms, teachers, and various facilities like a library, playground, and laboratory that help us learn.

Teachers guide us in learning subjects like maths, science, and language, helping us grow academically and personally.

School rules, like being punctual, respecting others, and following instructions, help create a good learning environment.

Making friends and participating in school activities helps us develop social skills and enjoy our school life.

Quick Revision Notes

- School has classrooms, teachers, facilities.
- Facilities: library, playground, laboratory.
- Teachers guide learning in various subjects.
- This helps us grow academically, personally.
- School rules: punctuality, respect, following instructions.
- They create a good learning environment.
