

Practice and Revision - Comprehension - A Story

Chapter 4: Comprehension - A Story · Topic 2

Key Concept

Comprehension involves reading a passage carefully to understand the characters, setting, plot, and main message of the story.

We answer questions about who did what, why events happened, and what lesson or message the story conveys.

Good comprehension skills include making inferences, meaning understanding things not directly stated but implied in the story.

Practising comprehension exercises regularly improves reading skills, vocabulary, and critical thinking abilities.
