

Vocabulary and Language Practice - Picture Time

Chapter 3: Picture Time · Topic 2

Key Concept

Describing words include colours (red, blue, green), sizes (big, small), and shapes (round, square). These words make our descriptions more interesting.

We can combine a describing word with a naming word, like 'a big round ball' or 'a small blue bird'.

We can also use describing words for feelings, like 'happy', 'sad', or 'excited', to describe how people in a picture might feel.

Using many describing words together, like 'a big, happy, blue bird', makes our sentences much richer and more detailed.

Quick Revision Notes

- Describing words include colours, sizes and shapes.
- 'Big' and 'small' describe size.
- 'Round' and 'square' describe shape.
- We combine describing words with naming words to make sentences interesting.
- Feeling words like happy, sad and excited are also describing words.
- Feeling words describe emotions in a picture.
- Using multiple describing words makes sentences richer.
- 'A big, happy, blue bird' uses three describing words.

Practice Questions

- 1 List three colour describing words.
- 2 List two shape describing words.
- 3 Describe an object using a colour and a size word together.
- 4 Draw and label a 'big red ball' or similar object.
- 5 Describe how a character in a picture might feel, using a feeling word.
- 6 Make a sentence using three describing words together.
